## Getting started

Using ACER's online assessment products is easy to do and involves a few key steps.

First contact ACER to set up an online account for you. Your online account gives you access to a wide range of products, free online help and access to some test manuals. A set-up fee applies for this service.

After that, you pay only for the tests you use.

For more information on setting up an account and on how online assessment works, please contact customer service on (03) 9277 5447 or email [sales@acer.edu.au](mailto:sales@acer.edu.au).

## Explanation of Pricing

Two sets of prices for online administration are included in the entry for the tests: Online Administration and Online Redeemable eTestCards.

### Online Administration

The Online Administration prices are available to those customers who purchase administrations directly through their account using a credit card. **Please note that these prices are listed in US dollars.**

### Online Redeemable eTestCards

The Online Redeemable eTestCards are available for purchase from ACER for those customers who don't want to use a credit card for purchases, or who want to be charged a price in Australian dollars. Online Redeemable eTestCards are like rechargeable phone cards in an email format – they allow customers to 'recharge' their online account with the number of test administrations they purchase. You will be sent an email with your card image and access codes.

If you have any questions about these two methods of purchase or would like to discuss which method suits your organisation best, please don't hesitate to contact ACER Customer Service on (03) 9277 5447 or email [sales@acer.edu.au](mailto:sales@acer.edu.au)
