A Note about Age and Grade before Registering

The ISA testing cohort is based on the student's grade, rather than on the student's age. We ask schools to submit the 'named grade' for the assessments: for example, children in the year or grade called 'three' should do the Grade 3 test, regardless of their age. The exception to this is in British-style schools where the AGE of children is approximately the same, on average, as those in the grade 'below' them. We recommend that these children are administered the ISA Grade name BELOW their Year level e.g. Year 4 children should sit the Grade 3 ISA.
