# ART-2 Technical / Trades Results
# A. Smith

The Applied Reading Test - Second Edition (ART-2) Technical / Trades Booklet is a measure of the ability to understand written material commonly seen in the context of a technical or trades position or course of study. It is indicative of the ability to read and understand information in a variety of formats (e.g., signs, instructional briefs, employee information). The test involves the ability to recognise the words, understand what they mean individually and in a sentence, as well as apply and demonstrate this understanding.

|---|---|
| **Candidate Name:** | A. Smith |
| **Test:** | ACER ART-2 |
| **Sub-test:** | Technical / Trades |
| **Raw Score:** | 25 |
| **No. of Questions Attempted:** | 25 |
| **Maximum Possible Raw Score:** | 30 |
| **ART-2 Scale Score:** | 65 |
| **Percentile Rank:** | 57 |
| **Stanine Score:** | 5 (Average) |

**Percentile Ranks** show the percentage of the reference group with scores below the candidate's score. For example, a percentile rank of 58 means the candidate has scored better than 58% of the reference group. Percentile ranks range from 0 to 100, with a higher score indicative of a higher level of reading ability.

**Stanines** provide a score for the individual compared to the reference group ranging from 1 to 9, with higher scores indicative of a higher level of reading ability. For example, a stanine of 2 means the candidate has scored well below average in comparison to the reference group.

**ART-2 Scale Scores** allow for comparisons among test-takers using different test forms. For more information, please look in the manual.
