The test required students to choose a synonym for a highlighted word in a sentence. The highlighted word from each question is shown in the graph above. This graph shows the relative difficulty of each question in the test. The questions are mapped by their scale scores, shown on the vertical ruler. The easiest questions are at the bottom and the most difficult questions are at the top. The greater the vertical distance between the items the greater the difference in difficulty. The boxed questions were answered correctly by this student.
